Additional Skills:	Visual Studio, VS Code, Git Bash, Unity, MongoDB, Microsoft SQL Server Management Studio, Microsoft Azure, SEO

PROJECTS

Portfolio https://brysonfrost.com
Built an interactive website using NuxtJS, Bootstrap, TypeScript, and Vue.js. This website has a list of various other projects, certifications, and skills.

PLMS
Collaborated with a team to design and develop a learning management system similar to Canvas. The technologies used were ASP.NET MVC, C#, SQL, and Azure for development. The website was created as a senior project.

Theater Management Simulator
Ranked in the top 5 students of an upper division class by creating an interactive 3D game using Unity and C#. The project was created to assist theater students with learning stage management.
